

San Antonio, Texas
February 14, 2022

MotoUP is ready to kick off the 2022 racing season. 2022 will be MotoUP's third year! We are a charity incubator combining technologists with motorcycle enthusiasts to give back to our local veteran community in need... all through motorsports. Team MotoUP has raised over \$53,000 to date for our combat wounded veterans and for the safety of motorcycle racing circuits throughout the United States. Our priority has been to imbed into the motorcycle community with a purpose.

Team MotoUP is proud to announce that they will be sponsoring Cory Ventura of MP13 Racing for the 2022 season. MP13 Racing is led by team principal, Melissa Paris and Cory Ventura is last year's AFM #1 plate holder and rising star. MotoUP is thrilled to be a part of supporting our young and talented future of racing. Feeding American talent into the racing pipeline is key to harvesting growth and seeing future Americans on the track, on the podiums and around the circuits. We wish Melissa and Cory the best of luck this season!

MotoUP's sole fundraising event will happen at the Americas GP in Austin, Texas, over the April 8th through 10th weekend. We have a jam-packed weekend set forth for our suite attendees. Our popular MotoTrainer and F1 simulators will be back as well as some amazing and unique auction items that we will reveal at a later date, also the Handbuilt Show is back! We will also have special guests and panel discussions. All of the proceeds that this weekend brings in goes to our 2022 beneficiary, Motorcycle Missions. We thank you for your support of this event and especially to our Corporate Sponsors who without we could not make this event a success. Thank you!
